

SAM BUCKBERRY

sam.buckberry@uwa.edu.au

The University of Western Australia • M316, 35 Stirling Highway, Crawley 6009

Current position

NHMRC-ARC Postdoctoral Research Fellow

Lister Lab (epigenetics and genomics)

Harry Perkins Institute of Medical Research

The School of Molecular Sciences

The University of Western Australia

Education

Doctor of Philosophy - Medicine (2012-2015)

The University of Adelaide

Robinson Research Institute

Thesis: An integrative analysis of the human placental transcriptome

Submitted April 2015 and accepted without change

Awarded the Dean's commendation for doctoral thesis excellence

Bachelor of Health Science - First Class Honours (2011)

The University of Adelaide

Robinson Research Institute

Awarded the Petrucco Honours Scholarship

Bachelor of Science (2008-2010)

Flinders University

Extended Major in Biological Sciences

Graduated in the top 10% of students

Chancellor's Commendation 2009 and 2010

Research funding

NHMRC-ARC Dementia Research Development Fellowship Grant (2016-2019): The Role of the neuronal methylome in natural brain ageing and the progression of Alzheimer's Disease (APP1111206).

Buckberry S (CIA) \$584,644

NHMRC Peter Doherty Biomedical Early Career Fellowship Award (2016-2019): The role of atypical DNA methylation in neuronal genome regulation and neurodevelopmental disorders (APP1110063).

Buckberry S (CIA) \$314,644. *This fellowship was relinquished to accept the grant above.*

Robinson Research Institute Seed Funding (2015-2016): A multi-faceted approach to understanding the consequences of diabetes in early pregnancy. Brown HM, Nottle M, Gatford K, Dunning K, Breen J &

Buckberry S. \$25,000

Robinson Research Institute Seed Funding (2014-2015): Investigating new mechanisms regulating transcription in the pre-implantation embryo. Brown HM, Bent SJ, **Buckberry S**, Thompson JG. **\$25,000**

Awards, scholarships & fellowships

- Raine Research Prize - Raine Medical Research Foundation (2019). Awarded for the best biomedical research paper by an early career researcher in Western Australia.
- Ana Africh Stem Cell Research Travel Scholarship (2019)
- Best Oral Presentation by Early Career Researcher at Australasian Genomic Technologies Association (AGTA) conference (2016)
- NHMRC-ARC Dementia Research Fellowship (2016-2019)
- NHMRC Peter Doherty Biomedical Early Career Fellowship (2016-2019) *relinquished*
- Y.W Loke New Investigator Travel Award, IFPA Conference (2015)
- Dean's Commendation for Doctoral Thesis Excellence (2015)
- Promega PhD Student Award, Lorne Genome Conference (2014)
- ANZPRA New Investigator Award Finalist (2013)
- Healthy Development Adelaide & Channel 7 Children's Research Foundation PhD Scholarship (2012-2015)
- NHMRC grant-funded PhD top-up scholarship (2012-2015)
- ANZPRA New Investigator Award Finalist (2012)
- The Robinson Research Institute Petrucco Honours Scholarship (2011)
- AR Riddle Honours Grant, The University of Adelaide (2011)
- Flinders University Chancellors Commendation (2011)
- Flinders University Chancellors commendation (2010)
- Flinders University Summer Research Scholarship (2010)
- Commonwealth of Australia Education Scholarship (2008-2010)

Service and community engagement

- Current director on the Australasian Genomics Technology Association (AGTA) executive committee
- Recently established the AGTA PhD scholarship
- Current chair of the *genomics technologies working group* for the upcoming 2023 International Congress of Genetics (expected ~4,000 delegates)
- Speaker - Pint of Science Festival 2018, a forum for communicating contemporary scientific developments to the public
- STEM mentor through The School of Indigenous Studies, The University of Western Australia (2018)
- Placental epigenetics workshop organiser - 2015 International Federation of Placental Associations (IFPA) conference
- Conference organising committee for the 2014 Australian and New Zealand Placental Research Association (ANZPRA) conference

Professional societies

- Australasian Genomic Technologies Association - Executive committee since 2017
- International Society for Stem Cell Research (ISSCR) - Trainee member
- Stem Cells Australia - ECR member

Peer review

- NHMRC project grant reviewer (2017, 2018)
- Internal project grant reviewer - University of Western Australia
- Peer reviewer for journals including *Genome Research*, *Clinical Epigenetics*, *BMC Genomics*, *Scientific Reports*, *Placenta*, *F1000 Research* and *PLoS ONE*.

Training

- Data Science Specialisation – Johns Hopkins University & Coursera (2014-2015)
- Advanced bioinformatics workshop, Australian Centre for Ancient DNA (2014)
- Software carpentry Boot Camp for Bioinformaticians, Adelaide (2013)
- Advanced bioinformatics workshop, Australian Centre for Ancient DNA (2013)
- EMBL-EBI bioinformatics workshop, Adelaide (2012)
- Advanced bioinformatics workshop, Australian Centre for Ancient DNA (2012)
- Beyond Words public speaking coaching (2012)
- University of Adelaide bioinformatics and scripting workshop (2010)
- Australian Science Communicators media training (2010)

Higher degree by research supervision & mentoring

- Mitchell Bestry - Current PhD candidate, The University of Western Australia and Telethon Kids Institute
- Thomas Frazer - 2019 BSc Honours in genetics candidate, The University of Western Australia
- Benjamin Mayne - PhD student 2014-2017 who I mentored and trained in bioinformatics at The University of Adelaide. Currently postdoctoral fellow in bioinformatics at the CSIRO.
- Fleur Spronk - 2014 BHLthSc First Class Honours student who I mentored and trained at The University of Adelaide. Currently a postgraduate medical student.

Teaching

- Lecturer for the Masters unit *Collecting, Analysing and Interpreting Big Data in Biology* (2019). School of Molecular Sciences, The University of Western Australia.
- Lecturer for the Masters unit *The Objectives and Applications of Genomics* (2017). School of Molecular Sciences, The University of Western Australia.
- Teaching for RNA-Seq analysis workshops at BioInfoSummer Conference - Australian Mathematical Sciences Institute and the University of Adelaide (2013).
- Teaching of postgraduate bioinformatics workshops at The University of Adelaide (2013).
- Coordinator and tutor for undergraduate biology Peer Assisted Study Sessions (PASS), Flinders University (2010-2011). In this role, I was mentored by Prof. Karen Burke da Silva (2016 University Teacher of the Year).

Conference presentations

Oral presentations

Characterising epigenome dynamics during the reprogramming of somatic cells to iPS cells. *Lorne Genome Conference 2017. Lorne, Australia.*

Characterising epigenome dynamics during the reprogramming of somatic cells to iPS cells. **Best ECR oral presentation**, *Australasian Genomic Technologies Association (AGTA) Conference 2016. Auckland, New Zealand.*

Moving towards integrative epigenomic analyses. *International Federation of Placenta Associations (IFPA) Conference 2015. Brisbane, Australia. Invited presentation.*

Integrative analysis of placental transcriptome organization reveals highly conserved regulatory programs and points toward a preeclampsia gene cluster. **New investigator award session.** *International Federation of Placenta Associations (IFPA) Conference 2015. Brisbane, Australia.*

Integrative transcriptome meta-analysis reveals widespread sex-biased gene expression patterns in human extra-embryonic tissue. **Promega PhD Student Award**, *Lorne Genome Conference 2014. Lorne Victoria, Australia.*

What can big data tell us about big tummies? *Robinson Research Institute Symposium 2014. Adelaide, Australia.* **Invited presentation.**

Using RNA sequencing to comprehensively profile the transcriptomes of reproductive tissues. *Society for Reproductive Biology Conference 2014. Melbourne, Australia.* **Invited presentation.**

Sexual inequality begins *in utero* with genome-wide differences in the human placental transcriptome. **ANZPRA new investigator award session**, *Society for Reproductive Biology Conference 2013. Sydney, Australia.*

Using RNA sequencing to quantify placental transcriptomes. *Methods in Reproductive Biology Symposium 2013. Mercy Hospital for Women, Melbourne, Australia.* **Invited presentation.**

Sex-biased gene expression at the human fetal-maternal interface. *Australian Society for Medical Research Annual Meeting 2013. Adelaide, Australia.*

Quantitative allele-specific expression analysis reveals imprinting plasticity of the H19 lincRNA. **ANZPRA new investigator award session**, *Society for Reproductive Biology Conference 2012. Gold Coast, Australia.*

Allele-specific expression of H19 and IGF2 in the human placenta across gestation. **Honours award session**, *Australian Society for Medical Research Annual Meeting 2012. Adelaide, Australia.*

Poster presentations

Profiling the genome regulatory landscape of Alzheimer’s Disease at single cell resolution. *NNIDR Australian Dementia Forum 2018. Sydney, Australia*

Placental transcriptome co-expression analysis reveals conserved regulatory programs and points toward a preeclampsia gene cluster. *Australian Society for Medical Research Annual Meeting 2015. Adelaide, Australia*

Quantitative analysis of imprinted genes in the human placenta reveals developmental stage-specific imprinting plasticity. *Lorne Genome Conference 2013. Lorne, Australia.*

Allele-specific expression of H19, IGF2 and IGF2R in the human placenta through gestation. *Epigenetics Alliance Conference 2012. Adelaide, Australia.*
